FIRE SAFETY IN THE KITCHEN

DO:
- Stay in the kitchen when cooking
- Unplug appliances when not in use
- Double-check and make sure all appliances are turned off
- Keep things away from cooktop
- Plug appliances directly into the wall
- Use GFCI outlets

DON’T:
- Never disable smoke alarms
- Avoid cooking when drinking, sleepy or taking meds
- Don’t use extension cords for appliances
- Don’t use your oven to heat your home
